

RecoverAir Safety 100

*Convertible, Self-Adjusting
Mattress Replacement System*

Addressing healthy skin and patient safety in a versatile, economical mattress

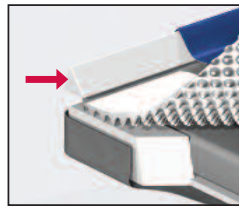

The RecoverAir Safety 100 is a convertible, self adjusting, pressure redistributing mattress replacement system providing prevention and early stage treatment of pressure ulcers, as well as fall risk reduction. As a convertible system it can be used as a non powered mattress supplying pressure redistribution through 12 foam filled, self adjusting air cells. With the optional control unit it "converts" to an alternating pressure system to increase its level of therapeutic benefit. The patented RC Safety Perimeter system is incorporated into the mattress to reduce the risk of patient falls.

RecoverAir Safety 100 *Convertible, Self-Adjusting Mattress Replacement System*

Features

- Safety perimeter system minimizes the risk of patient falls and side rail entrapment
- Reacts to body movement by shifting air throughout the system
- Converts from non-powered to powered alternating pressure
- Firm foam perimeter allows for a more stable entry and exit
- Non skid bottom reduces the risk of mattress sliding
- Multi-way stretch cover for improved pressure redistribution and comfort
- Sloped foot section minimizes heel pressure
- Latex free

Improving Patient Safety - the foam ridges in the patented RecoverAir Perimeter System are built into the mattress top cover minimizing the risk of falls and side rail entrapment

Safer egress - Firm foam perimeter allows for a more safe and stable entry and exit

Self Adjusting air cells - horizontal air cell system adapts to body movement to maximize weight displacement and minimize tissue interface pressure

Clinical Considerations

- Multiple stage 2, 3 or 4 pressure ulcers
- Contra-indicated for patients with unstable spine conditions

Specifications

- Dimensions
 - Pump: 10.2" x 5.1" x 3.1" (3.3 lbs)
 - Mattress: 80" x 35" x 9" (41 lbs)
- Weight capacity: 500 lbs
- Electrical rating: 120V~, 60Hz, 5A
230V~, 50Hz, 2.5A
- UL listing: conforms to UL 1431
- Flammability: Cal 117, will meet TB 603 and Cal 129 with optional fire sleeve
