

# Tympany™ Pulmonary and Wound Management System

## **Pulmonary and Wound Management System**

Tympany, the complete system for Critical Care that assists with:

- Reducing Ventilator Associated Pneumonia (VAP) and other complications associated with patient immobility
- Preventing and treating pressure ulcers

Comes complete with Silver3® cover.

For the results you need, make Tympany part of your protocol for high acuity patients.

**RecoverCare®**  
*Equipment. Solutions. Results!*

# Tympany™ the integrated advanced pulmonary therapy system that combines rotation, percussion, vibration, low air loss and pressure redistribution.

The Tympany System delivers therapy to high-risk patients and reduces your risk of physical strain or injury with Tympany's Turn Assist and Max Inflate capabilities.

• Tympany's cover with Silver3® Technology is impregnated with silver ions

• The pivoting controller can be placed on either side of the bed and will not interfere with bed controls or accessories

Specially designed sloped heel area for added protection

## The Controller

- **Easy-to-use:**

Touch screen interface with advanced functions that includes patient tracking, multi-lingual capabilities and programmable defaults

- **Easy-to-understand:**

Concise display that provides current operational status as well as the time remaining per therapy cycle

- **Easy-to-view:**

Intuitive graphic displays lessen reliance on language to monitor system status

## Rotation:

- Rotation therapy with low air loss turns your patient automatically to help reduce complications associated with patient immobility
- For patient's safety, rotation is limited when head is elevated above 30°

## Percussion and Vibration:

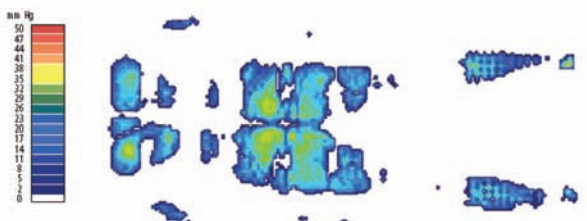

- Percussion helps mobilize pulmonary secretions
- Vibration helps achieve better lung clearance
- For these vital functions, Tymparty's offer adjustable frequency (percussion only), intensity and duration to easily customize patient needs
- Either function is available during rotation therapy

# Tympany™ Pulmonary and Wound Management System

## Seeing is Believing

The Tympany mattress system provides effective pressure ulcer management. Studies show that prevention of pressure ulcers alleviates unnecessary patient discomfort and saves thousands of dollars in treatment and follow-up costs.

Tympany mattress at 30°

The Tympany mattress system provides effective pressure ulcer management therapy and provides all clinical functions up to 500 lbs.

## The Silver3® Cover

The Silver3 cover is designed for excellent performance and durability. It features:

- 360° zipper that fully separates to allow for easy replacement of the top or bottom cover independently
- Fire retardant, anti-static and fluid resistant properties
- Top cover imbedded with silver ions

- **Waterfall Flap** construction keeps fluids from being trapped along the edges or leaking through the zipper
- **Low Slip Bottom Cover** helps keep the mattress in place on the bed frame

## Specifications

- Dimensions:  
35"W x 84"L x 8.5"H (213cm x 89cm x 22cm)
- Weight: 115 lbs (52kg)
- Electrical Rating: 120VAC
- Current Leakage: < 300 microamperes
- Agency Approvals: US UL
- Hospital Grade Plug: Yes
- Ampere Rating: 2.5 A
- EMC Compatible: Yes
- Warranty: 2 year Ltd.
- Weight Capacity: 500 lbs
- Fire Code: CAL 129, Boston I&II, 16 CFR Part 1632

Silver3 is pending in the US under Dartex Coatings LTD only.  
It is registered in the UK under Dartex Coatings LTD.
